INTERESTED IN BECOMING A GRADUATE ASSISTANT (GA)?

BENEFITS

- Graduate tuition waived
- Competitive stipend
- Research support and work experience

REQUIREMENTS

- Enrollment/admission into one of the following graduate programs:

MS Computer Science
MS Data Science
MS Electrical Engineering
MS Mechanical Engineering

- Departmental approval for thesis pathway
- Maintain successful academic and research progress
- Maintain 3.0 GPA

Still working on your admission application OR thesis approval?
Though graduate admission and thesis approval are required before an offer is made, interested applicants are encouraged to begin the GA application process even if their admission decision or thesis topic is still being finalized.

PROCESS

- Submit an application for employment through the GA job posting and include your resume along with a brief overview of your research interests.
- If selected for an interview, be prepared to discuss your research interests as well as your professional and academic goals.
- Candidates who apply by February 15 will receive a decision by the end of March. Applicants who apply after February 15 may be considered as space is available.

FEBRUARY 15
